

It's all about figuring out what makes players tick:

"There's so much to say about Mr. Levin's talents. He has an unbelievable way of helping individual athletes figure out what's holding them back. To me, it was the greatest

feeling I've had in such a long time, and for that, I owe him and thank him very much! I really hope that we are blessed enough to get a chance to work with him again!"

—Joseph Gambardella, UMass Lowell hockey

It's all about reaching potential:

"Jeff motivates and challenges me to reach my full potential in all aspects of life. He has pushed me to put my best foot forward in whatever I'm doing, be it basketball, school or relationships. Jeff's understanding and caring nature make him not only a great life coach and team builder, but a great mentor as well. No matter who you are, if you want to be a better person in any way, shape or form, Jeff's your guy."

—Alex Stoyle, Brandeis Basketball

JEFF LEVIN COACHING

Confidence Coaching for athletes

Find what you love – live what you find.

Confidence Coaching

This is a complicated time, especially for student athletes. The pressures are varied and powerful, and even high-performing kids benefit from less stress and more confidence. Confidence Coaching provides an invaluable leg up that will last a lifetime, both on game day and in life.

No matter where he or she is emotionally, Confidence Coaching can help your student athlete. If your kid's in a bad place, we can help him/her and your family work through that. If things are going well, shedding stress and learning how to incorporate dreams into goals and ambitions will help things go even better on and off the field.

Confidence Coaching gives athletes three invaluable emotional skills:

- They will learn how to consciously focus on their strengths and master their emotional detours, in their sport, academics, family life, and beyond.
- Because they become more comfortable with themselves in the coaching process, they are truly more solid, connected, competent, and confident and are ready to achieve, contribute, and excel. This markedly increased self-possession is projected onto everything they do, in their sport and beyond. They're more coachable, more recruitable; their increased self-possession is clear to interviewers, teachers, family, coaches, and peers.
- They enlarge their circle of connections and influence, strengthening their leadership skills wherever they may travel.

The Process

We use a three-step formula:

- 1) What are your dreams in sports and in life?
- 2) What mental, emotional, and behavioral "detours," both conscious and unconscious, might be hindering the realization of those dreams?
- 3) What can be done to eliminate those detours?

There is a two-hour initial comprehensive evaluation that includes in-depth interviews with the young person and the parents in the home. Coaches and other key adults are interviewed as needed.

A written plan is developed, and in-person, Skype, phone, and texting sessions are scheduled at whatever frequency and pace are required for rapid and effective progress. This is generally not a long-term program: most kids experience significant improvement after only a few sessions.

If you'd like to discuss whether my approach might be a good fit for your son or daughter, feel free to contact me at 603-496-0305 or Jeff@jefflevincoaching.com.

About Jeff Levin

Born and raised in Newton, Massachusetts, and a graduate of Dartmouth College, Boston College School of Education and the Smith College School

for Social Work, Jeff has devoted his professional life (36 years and counting) to supporting young people and their families. He began his professional career as a middle-school English teacher in Carlisle, Massachusetts, and since then has worked as a psychotherapist and life coach with individuals and groups in a wide variety of settings helping families, schools, teams, individual athletes, young people, and corporations all over the country.
