

Dear Parent:

The Reconnection Project, <http://www.jefflevincoaching.com/the-reconnection-project/>, seeks to help young people reduce the unprecedented stress many experience and find joy and confidence as we work in the schools to bring parents and educators together for that cause.

As part of the project, we are producing a short video for parents of students describing in their own words the various sources of stress and anxiety they experience and what they could use for help from all of us.

We are writing to tell you about the project and to ask for your permission to allow your son/daughter to appear in this video project, which will be publicly available upon its release. If you give your permission, please sign and date below and return to me at the mailing address or email address below or have your child give it to me.

Also, feel free to be in touch with ideas, thoughts, and questions about the Reconnection Project. We welcome your input.

Thanks,

Jeff Levin

I hereby give my permission for my child, _____, to appear in The Reconnection Project video as described above. I understand that the video will be available to the public upon its release.
